Kawit, Cavite | +63 915 491 9033 | angelobullo22@gmail.com | github.com/AngeloBullo

PROFESSIONAL SUMMARY

Motivated and detail-oriented Information Technology graduate with internship experience in digital record encoding, database administration, and applicant document verification. Skilled in MySQL, PHP, Laravel, JavaScript, and Tailwind CSS, alongside hands-on expertise in computer hardware and network troubleshooting. Proven track record in building full-stack web applications and streamlining administrative workflows. Seeking to apply technical problem-solving skills in Technical Support or IT Operations roles.

TECHNICAL SKILLS

Programming & Frameworks:	PHP, JavaScript, SQL, Laravel, Tailwind CSS, HTML5, CSS3
Databases & Developer Tools:	MySQL, Git, GitHub, Cisco Packet Tracer
IT Infrastructure & Support:	Technical Support, Computer Hardware Troubleshooting, Network Troubleshooting, System Maintenance
Administrative & Productivity:	Microsoft Office Suite (Word, Excel, PowerPoint), Data Verification, Records Management

WORK EXPERIENCE & INTERNSHIP

IT & Administrative Student Intern Office of Student Affairs and Services (OSAS) – CvSU Silang	March 2026 – May 2026
- Encoded student applicant information and maintained digital records with high data accuracy and strict confidentiality. - Verified critical applicant documentation requirements, including Form 137, Certificates of Enrollment, and Certificates of Non-Issuance. - Supported administrative and IT verification workflows to streamline student applicant processing and reduce delays.	
Production Operator EMI YAZAKI – Anabu II, Imus, Cavite	April 2021 – September 2022
- Adhered strictly to Standard Operating Procedures (SOPs) and quality assurance guidelines in wiring harness manufacturing. - Maintained high process discipline, detail orientation, and operational efficiency while working in shifting schedule environments.	
Dining / Pantry Service Crew KFC – WalterMart Dasmariñas, Cavite	February 2020 – March 2021
- Delivered efficient customer service and pantry support in a high-volume, fast-paced retail environment. - Demonstrated strong adaptability, time management, and team collaboration across varying shift schedules.	

PROJECTS

Super Eggciting: Web-Based Inventory and Sales Monitoring System (Capstone Project) Full-Stack Developer	2025 – 2026
- Engineered a full-stack web application using Laravel, Tailwind CSS, and MySQL to automate inventory management and monitor real-time sales transactions. - Integrated IoT-enabled hardware (barcode scanner and thermal receipt printer) to streamline point-of-sale operations and eliminate manual data entry errors. - Designed scalable relational database structures, secure user authentication controls, and dynamic data filtering for accurate inventory tracking and auditing.	

EDUCATION

Bachelor of Science in Information Technology Cavite State University – Silang Campus	September 2022 – September 2026
